

Hekla 30 fire box.

HEKLA

For cooking or heating on the go, it's the ideal portable solution

Our fire box, Hekla, gives off little smoke but a lot of heat which means it is easy to cook food on it. Or you can simply enjoy the heat and light from its open fire. Its clever design means that it takes up very little space when packed. Complement with Hekla fire box stand, that effectively protects from scorching on lawns, sensitive woodlands or stone slabs.

Hekla

Hekla fire box design

Many holes in the bottom provide the fire with sufficient oxygen. This both increases the combustion efficiency as well as the heat produced. Therefore, wood added to the fire burns better. The frame around the fire reflects the heat and ignites the wood stumps which would otherwise produce smoke. Wood fuel use is reduced and there is much less risk for eye burning smoke. Folds into a flat pack in its bag when not in use.

Use with floor or inner tent

The tent floor must always be folded away when the fire box or fire box stand is used.

Make a fire on snow

The fire box is indispensable if you are going to build a fire on snow. The legs fold out and can be placed on branches or other support material on the snow, thereby preventing the fire box from sinking into the snow. Hekla fire box stand is another alternative that prevents the firebox from sinking because of the heat.

Hekla 30 BBQ grate

Hekla 7

Works perfectly on hikes as an alternative to a spirit stove set. Throws off a comfortable heat which, for our smaller Nordic tipis, is sufficient if the temperature is only a few degrees below zero.

Hekla 30

Large enough for making big fires. Good for Nordic tipi size 7 and larger. When packed flat, it's so small and compact, it can be taken everywhere.

Hekla fire box stand

Lawns, sensitive forestland or stone slabs are effectively protected from scorching. The stand also prevents Hekla 30 from tipping over when the grate is used as a protruding shelf for keeping food warm. It has extra ground support on both long sides and folds down to a compact box when not in use. Fits Hekla 7 and 30.

Hekla 30 BBQ grate

Accessory for Hekla 30 for barbecuing or as a protruding shelf for keeping food or coffee warm without boiling.
