

Zirkon 7 light with
Inner tent 7 Comfort
and stove Eldfell.

ZIRKON™

Your living room in your backpack

Zirkon is medium class in Tentipi's world but top class in other contexts. Zirkon is a mobile home for people who want to invest in outdoor living and experience a new dimension of comfort and possibilities.

The lightweight version is very popular because of its eye-catching yet earthy colour.

Key features

1

Large smoke opening with mosquito-net ceiling
Ensures efficient ventilation on warm days and smoke clearance when using a fire.

2

Tent fabrics
Strong, high class fabric. Zirkon is available in two model variants with different fabrics: cotton/polyester (cp) and light.

3

Central pole
Five-piece hardened aluminium alloy pole.

4

Door fitted with mosquito net
Improves ventilation. Diagonal zip with rain flap prevents water penetration.

5

Storm cords
Pre-tied and fitted with holders, with reflecting threads woven into the cords. Storm cord holders allow cords to be in place ready for use, without tangling.

6

Reinforced edging
50 centimetres high, for better wear resistance. Exposed parts of the tent walls are strengthened with strain-relief reinforcements.

7

Ground straps
Strong, adjustable ground straps are used instead of cords to tension the Nordic tipi.

8

Chimney opening
Versatile feature that allows the easy fitting of a stove.

9

In-Tent Vent™ system
Allows maximum control of the tent's indoor climate using patented technology.

10

Accessory sleeve
Built-in feature for attaching porch or canopy.

11

Safety toggles
Enable door to be closed even if the zip has been damaged.

12

One large air intakes
Adjustable from inside the tent, fitted with a mosquito net.

Fabrics

ZIRKON cp – Cotpolmex Comfort

Strong and well-ventilating cotton/polyester fabric which gives an indoor climate far superior to that of a tent made of any kind of coated fabric. The fabric has a natural feel and its beige-brown colour creates a warm, pleasant atmosphere in the Nordic tipi. Fades rapidly in the sun but without losing strength. Mildew prevention. Approximately 275 g/m².

ZIRKON light – Traillix Comfort

A carefully chosen and very good standard fabric. Non-ventilating, rusty red, light, ripstop-reinforced polyamide fabric, UV-protected and double-sided silicone-coated. Approximately 85 g/m².

Included

Double ventilator cap fitted with net, one air intake with net, door with net, mosquito-net ceiling, central pole, storm cords, storm cord holders, measuring tape, mounting cross, two inside pockets, compression bag and advanced tent pegs.

Floors and inner tents as accessories

We want our Nordic tipis to be as flexible as possible. That is why you can choose to supplement the outer tent with the different types of floors or inner tents that will best fit your needs. Visit tentipi.com

More accessories

Why choose a Nordic tipi from Tentipi?

Easy to pitch in only a few minutes

Measure out eight pegs in a circle, attach the tent canvas and then raise the central pole. With our standardised method, you can't go wrong.

You can use a fire or stove inside

Whether you prefer an open fire or a stove, our Nordic tipis' unique design enables fire-making for warmth and cosiness. Increases safety in cold conditions.

Outstanding ventilation

Keeps you comfortable whether you camp in the Arctic or under a blazing sun in the desert. Mosquito-netted openings let you ventilate out hot air and smoke without getting insects in the tent.

Very stable in strong winds

The symmetrical shape and low central gravity make our Nordic tipis more secure in high and gusty winds than most other tent designs.

Space for socialising and plenty of headroom

Friends and family can socialise around the fire. You can get dressed in the morning without crawling around on the floor.

Modular and flexible

You can use the outer tent on its own or add an optional floor or inner tent based on your needs. A Nordic tipi from Tentipi is comfortable, safe and highly versatile, with a low weight in relation to capacity.
