

### Zirkon key features

- Rain-protected, mosquito-netted air intake at bottom edge of tent for improved ventilation and smoke control
- Ventilator cap: double piece with six opening points, controllable from inside the tent; integral chimney opening; mosquito protection to top piece; tighter fitting by use of fibreglass spacer rods
- Storm cords: with reflecting threads woven into the cords; pre-tied and fitted with holders
- Advanced compression bag for tighter packing
- Mosquito protection sewn in to top edge of tent
- Reinforced edging for better wear resistance around bottom edge of tent
- Three minutes to erect
- Standing room
- Class-leading storm resistance
- Use with open fire or stove
- Use on its own or with any model of floor or inner tent
- Door: double-zip with integral mosquito protection
- Hanging loop for drying

Sophisticated ventilation and advanced features make Zirkon a home-from-home in all but the most extreme conditions. A perfect balance between price and performance for a wide range of adventurous activities.

#### Breathable – Cotpolmex Comfort

Highly breathable and strong cotton/polyester fabric, creating a much better internal atmosphere than is normally experienced in tents. The tightly woven fabric and high class impregnation give high water repellency.

#### Non-breathable – Traillix Comfort

Lightweight ripstop polyamide fabric. UV-protected and silicone-coated on both sides. A carefully chosen, light and very fine standard fabric.
